incl. 1x SMD LED, 1W · 1x 12lm,

- **Switch**
- **Dusk sensor**
- **Rechargeable battery operated**
- **IP44**
- **Solar**
- **Flame effect**

Solar lights a convenient alternative to fixed electricity and ideal light for home and garden. Whether on long summer evenings in the garden or in the living room to linger, the solar lamp VINTO in boho-chic provides with flame effect for a particularly cosy atmosphere. Thanks to the solar panel, the light from the sun can be captured and converted into electricity. This gives you the opportunity to place the outdoor lighting wherever light is needed, without any need for electricity. In addition, the light has a twilight sensor so that the light switches on automatically when it gets dark and switches off again when it gets bright. Due to its IP44 protection class, the table light is protected against splashing water and therefore suitable for outdoor use. The lighting time of the solar light is 5 hours and the charging time is about 8 hours. The light-coloured design in beige and the lantern look in a basket design set decorative accents and create a harmonious ambience to feel good.

Material construction

Plastic · fawn
