

Electronic Relays and Actuators: Multi and Single Function

Call and reset switches for bathrooms

Bathroom lighting control

Bedroom light control

Living room light control

Office lighting control

Remote climate control

13 SERIES

13.81 - Quiet electronic step relay - Rail mount - 1 Pole

13.91 - Quiet electronic step relay and timing step relay Switch box mount - 1 Pole

- Fixed time (10 minutes) timing function selectable (13.91)
- Use with 3 or 4 wire connection, with automatic recognition by the relay
- Control input can be continuously applied
- Longer mechanical and electrical life, and much quieter than electromechanical step relays
- "Zero crossing" load switching
- Can be mounted behind blanking plates, as widely used in residential wiring systems such as; BTicino: Axolute, Matix, Living and Magic, Gewiss: GW24, Vimar: Plana and Idea ... (13.91)
- 35 mm rail (EN 60715) mount (13.81)
- Cadmium free contact material

13.81/91 Screw terminals

13.81

- 1 NO (SPST-NO)
- 35 mm rail (EN 60715) mount
- 17.5 mm wide

13.91

- 1 NO (SPST-NO)
- Step relay and timing step relay (10 minutes)
- For mounting within residential switch boxes

For outline drawing see page 19, 20

Multi and Single function electronic relays with Bluetooth

13.22 - Electronic multifunction relay 2 Pole

- Round wall box (ie: 0 60 mm) mounting
- 21 available functions (step relays, timer, staircase timer) for lighting and fan motor control

13.72 - Electronic multifunction relay 2 Pole

- Wall mounting, compatible with most popular Italian residential switch boxes: AVE, BTicino, Gewiss, Simon-Urmet, Vimar
- 21 available functions: step relays, timing (1s 24h), electric shutter, blind or curtain control

13.S2 - Electronic roller shutter actuator

- Round wall box (ie: 0 60 mm) mounting
- For electric shutter, blind or curtain control
- 2 contacts NO 6 A 230 V AC independent and programmable channels
- 2 inputs for wired pushbuttons (one input per channel)
- Transmission range: approximately 10 m in free space and without obstacles

13.22/S2/72 Screw terminals

NOTE: with 110...125 V AC supply, the Ratings (AC1, AC15 and lamp loads) must be reduced by 50% (e.g. $100\ W$ instead of $200\ W$)

For outline drawing see page 20

Bluetooth single channel multifunction relay Type 13.21.8.230.B000

- BLE communication protocol
- Round wall box (ie: 0 60 mm) mounting
- 12 available functions
- Up to 8 scenarios
- Pushbutton Phase or Neutral connection

Radio frequency remote actuator for BLISS2

Type 13.21.8.230.S000

- 868 MHz long-range radio frequency transmission
- Multi-zone heating/cooling function
- Hygrostat function combined with the BLISS2
- Compatible with the BLISS2 smart thermostat

13.21 Screw terminals

YESLY

- 1 CO (SPDT) 16 A 250 V AC
- Bluetooth Low Energy (BLE) transmission protocol
- 128-bit encrypted connection
- Programmable via app Finder YOU compatible with iOS and Android operating systems
- It can be connected to wired buttons or to BEYON and 013B9 wireless buttons
- Recess mounting

- 1 CO (SPDT) 16 A 250 V AC
- Compatible with BLISS2 smart thermostat
- Heating/cooling systems direct or solenoid control
- It can be used in dehumidification or forced ventilation systems

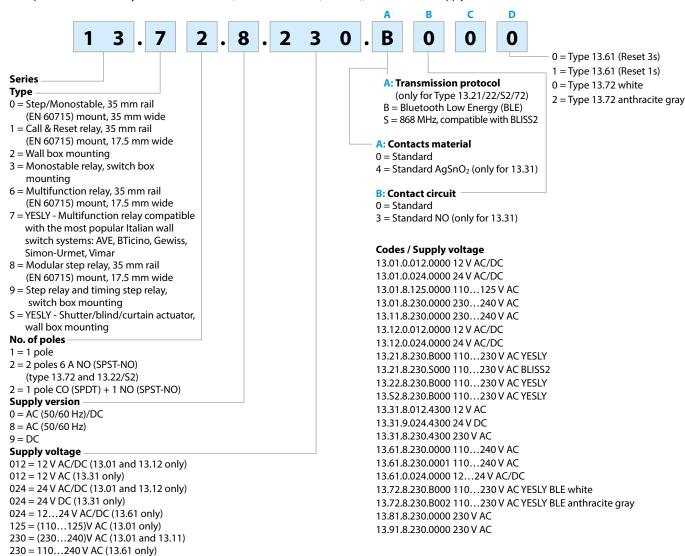

For outline drawing see page 16

^{*} For 8.230 version.

Functions for types 13.01, 13.11, 13.12, 13.81, 13.91

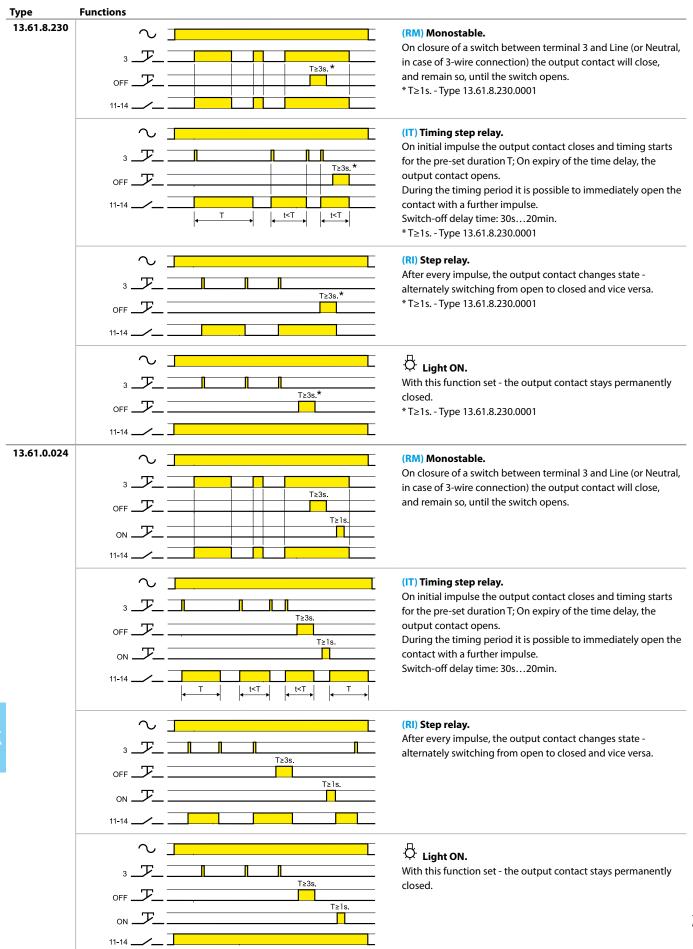

Operating mode setup for type 13.91

- a) Remove the supply voltage
- b) Press the control button
- c) Apply the supply to the relay, keeping the button closed. After 3 second, the light will flash twice to indicate the selection of the "IT" function, or flash once for "RI" function.

Functions for type 13.61

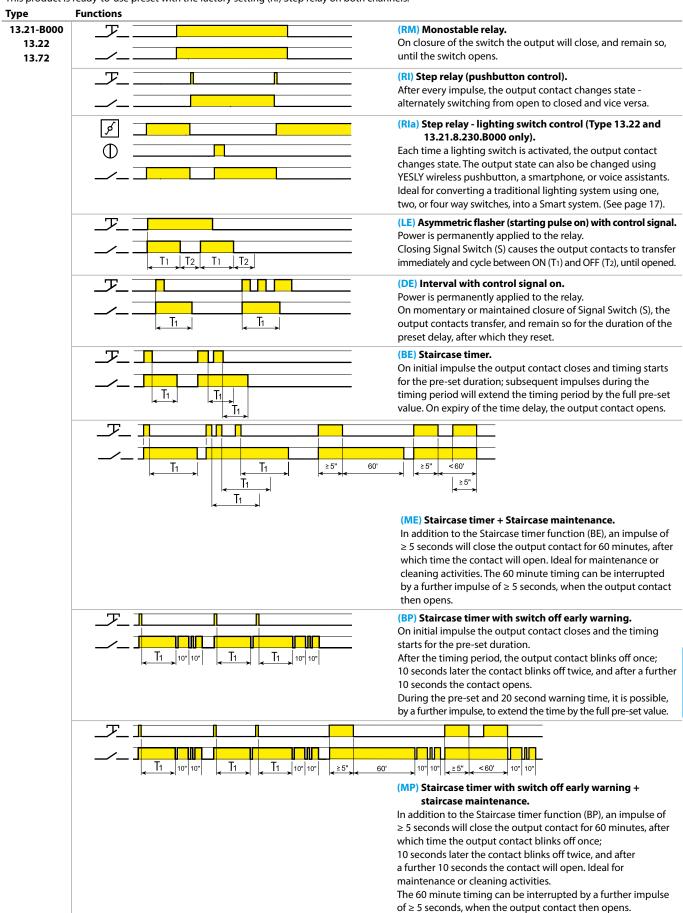

Functions for type 13.22, 13.72 and 13.21.8.230.B000

Relay settings

Multifunction electronic relays can be configured with the Finder YOU app, available for iOS or Android systems. This product is ready-to-use preset with the factory setting (RI) Step relay on both channels.

Functions for type 13.22, 13.72, 13.21.8.230.B000 and 13.S2

Type	Functions	
13.21-B000 13.22 13.72		(IT) Timing step relay. On initial impulse the output contact closes and timing starts. On expiry of the time delay, the output contact opens. During the timing period it is possible to immediately open the contact with a further impulse.
	T1 10° 10° T1 10° 10° 10° 10° 10° 10° 10° 10° 10° 10	(IP) Timing step relay with switch off early warning. On initial impulse the output contact closes and timing starts. After the timing period, the output contact blinks off once; 10 seconds later the contact blinks off twice, and after a further 10 seconds the contact opens. During the pre-set and 20 second warning time, it is possible to immediately open the output contact by a further impulse.
	▼	(FZ) Timing monostable. The output will be closed when the switch is closed, except where the switch is closed for greater than the preset time T1 - in which case the output contact opens.
13.22 13.72	P1	(VB) Bathroom light + fan. Channels Ch1 and Ch2 both close when the P1 command is pressed. At the expiry of T1 Ch1 opens and after a further delay of T2, Ch2 opens. Ch1 can be prematurely opened by another press of P1.
	Ch1	(CP) Ringbell + light. A press to P1 closes Ch1 for the pre-set time T1. While Ch1 is closed Ch2 executes a blinking function, at a rate set by T2. Subsequent presses to P1 extends the Ch1 closed time by re-triggering T1.
13.52 13.72	P1	(TP) Roller shutter. A short press (< 1 second) to P1 ("up" pushbutton) initiates a 500ms delay before Ch1 closes for time T1. Pressing P1 again within time period T1 will immediately open Ch1 contact. If P1 is closed for more than 1 second the Ch1 contact will open immediately P1 opens. The same operation applies to P2 and Ch2 contact, used to control the "down" function.

Sequences

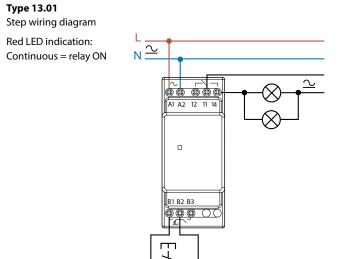

P1 (SET): press to advance through the sequence

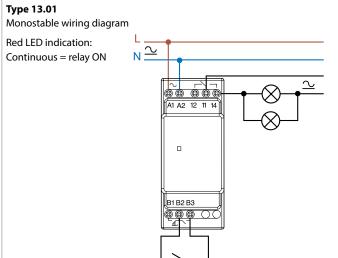

P2 (RESET): press to return to Step 1

020.01

Sheet of marker tags (CEMBRE Thermal transfer printers) for relays types

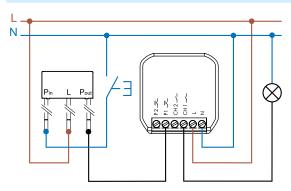

13.11, 13.12, 13.61 and 13.81 (48 tags), 6 x 12 mm

060.48

Pushbutton phase/neutral converter. Use this with a pre-existing neutral wired pushbutton when retro fitting a device designed only for phase connected pushbuttons. This avoids any radical change to the existing wiring.

013.00

Application example with type 13.22

013.17

Adapter for DIN rail, to install devices 13.22, 13.21, 13.52 in the electrical panel.

013.17
