# PERFORMANCE <sup>(/)</sup> in LIGHTING

Max. ambient  
temperature (°C): 40

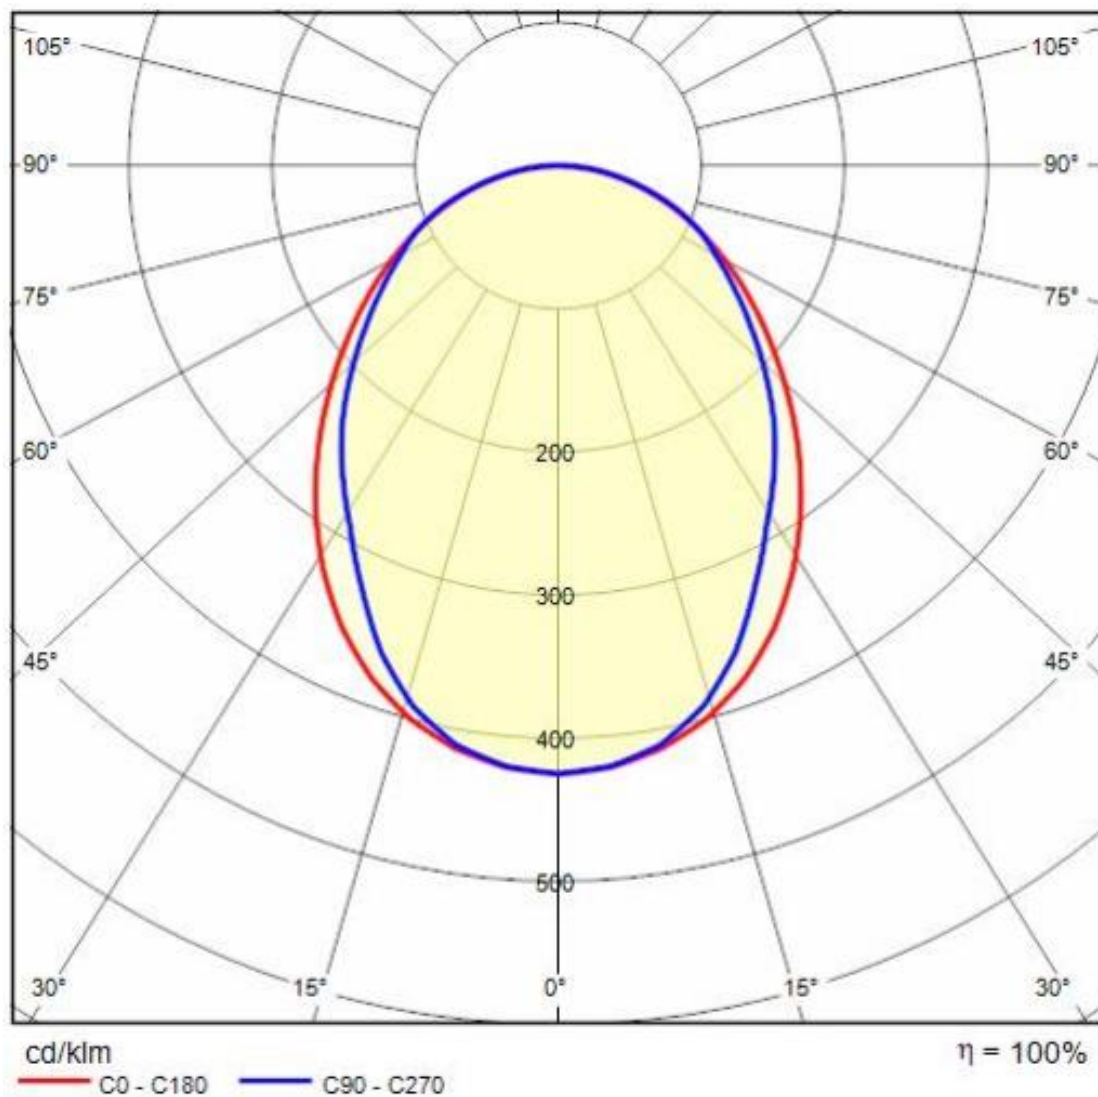

## Description

Series of class I reduced depth in-ground luminaires, comprising:

- Black painted anodised die-cast aluminium housing
- High-transparency polycarbonate lenses grant an optimized light transmission
- High resiliency anti-ageing silicone gasket with high elastic return capacity
- Extra clear, tempered, flat glass diffuser
- The C/EW versions have a diffuser in flat, extra clear, tempered safety glass with acid-etched finish.
- Die-cast aluminium trim painted
- Closing ring in AISI 316 stainless steel with satin finish (stainless steel versions)
- Mains connection device WATER STOP
- Recessed housing manufactured from technopolymer. Order separately
- Stainless steel external screws
- Floor mounted luminaires are subject to harsh conditions during use. For proper use and safety, they must be correctly installed by qualified personnel and according to the manual instructions
- Do not install luminaires in sunken areas
- If the device is accessible to the public, it is advisable to ensure that the glass temperature is compatible with the prevailing local installation standards. The temperature is indicated on the website, on the data sheet of each item.

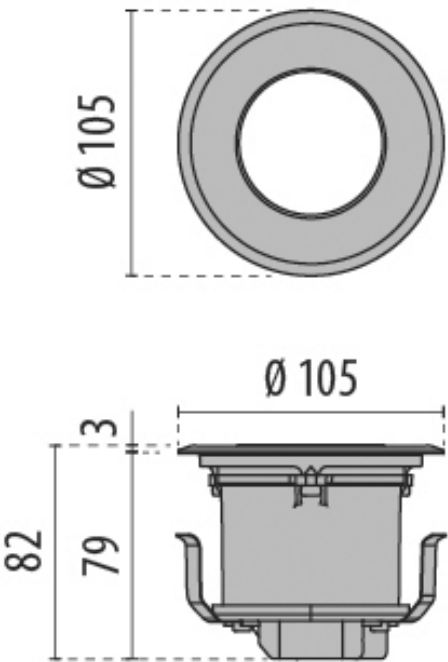

- PERFORMANCE IN LIGHTING
- RGBW and Tunable White versions powered with SELV drivers 48V DC, available as accessories (ordered separately). Colour management is through a DMX interface
  - DMX signal generator for RGBW and Tunable White versions to be ordered separately
  - Photometric data measure according to UNI EN 13032-4 and IES LM-79-08
