An absolute eye-catcher! The OGASAKI ceiling light provides optimum lighting results and gives your living space that certain something. Functions such as setting the light colour, brightness or night light can be selected using the remote control supplied. In addition, the centrally positioned spheres are equipped with an RGBW colour changer and can be switched separately from the main light source. Thanks to the integrated memory function, the last light scenario set with the remote control is set as soon as the light is switched off and on again using the wall switch. The simple white colour scheme makes it easy to integrate into existing colour concepts. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
