

VASM / VASM L

Heat-shrinkable closure system for telecommunication cables

Closure system for cutted and uncutted telecommunication cables in the unpressurized distribution network of the DEUTSCHE TELEKOM AG. Suitable for all types of cable sheaths and splices.

VASM

Closure type for standard installation practice, 6 sizes for cables up to 700 wire pairs.

VASM L

Closure type for installations with longer sheath opening, 3 sizes for cables up to 400 wire pairs.

Characteristics of the VASM

- High mechanical strenght due to the laminated liner
- Reliable sealing of the splice area against humidity by means of hot melt adhesive
- Max. 3 cable inlets and outlets on each side
- Simple and reliable installation without requirement of special tools
